

EE/CPE 423
Fall 2002 / Spring 2003
WEEKLY STATUS REPORT

Group: **12** Date: **October 6, 2002** Report No.: **3**

Project Title: **Redesign of the Stevens Campus Network**

Group Leader: **Philip Tan** Advisor: **Prof. Sumit Ghosh**

Sponsor / Client: **Stevens Institute of Technology (???)**

Number of hours spent by group on project in the past week: **~ 7 hours**

Project on Schedule: **YES**

Weekly Status:

A group web site was created and is being temporarily hosted on Grace Shabo's web site. The current URL of the site is:

<http://attila.stevens-tech.edu/~gshabo/SeniorD/SeniorD.html>

Entries such as group member names with contact information and titles as well as a group calendar were added to the site.

A more permanent location for the group web page was set up. The page temporarily located on Grace's web site will be moved to the new location in the near future.

The group members completed the ns2 tutorial on the web. Issues related to the Network Animator program (nam) were discovered during usage. Random crashing seemed to occur during its use. These crashes were linked to a misunderstanding of nam's syntactical representation of a network setup, as well as poor error handling code in the nam application itself. In other words, the program would crash with no reason given by the application.
