

EE/CpE 415/423 – 416/424  
2002 Fall – 2003 Spring  
WEEKLY STATUS REPORT

Group No.: 15

Date: January 20, 2003

Report No.: 1

Project Title: Real-time Wireless Sensor Network – Signal Analysis for Security Applications

Group Leader: Mark Woolley

Advisor: Prof. Tureli

Sponsor/Client:

Number of Hours Spent on Project by Group in Past Week: 12

Project on Schedule: YES

We have been working on this project all winter break. Parts were delivered around the 6<sup>th</sup> of January. So up to this point we have been putting together the transmission part of our prototype. We have been trying to get all our Comblocks to be recognized by the computer but one out of the four has not been detected.
