

EE/CpE 415/423 – 416/424
2002 Fall – 2003 Spring
WEEKLY STATUS REPORT

Group No.: 15

Date: February 24, 2003

Report No.: 6

Project Title: Real-time Wireless Sensor Network – Signal Analysis for Security Applications

Group Leader: Mark Woolley

Advisor: Prof. Tureli

Sponsor/Client:

Number of Hours Spent on Project by Group in Past Week: 8

Project on Schedule: YES?

This week we did not have the chance to meet with one another due to the weather at the beginning of the week. We finally moved everything to the new lab and put our system together. Everything still works fine. We called Comblock to check to see if our parts are going to be delivered and they said there was a back order so our receiver won't be sent out until the end of this week. In the meantime, we plan on meeting and working on our code.
