

EE/CpE 415/423 – 416/424
2002 Fall – 2003 Spring
WEEKLY STATUS REPORT

Group No.: 15

Date: March 17, 2003

Report No.: 9

Project Title: Real-time Wireless Sensor Network – Signal Analysis for Security Applications

Group Leader: Mark Woolley

Advisor: Prof. Tureli

Sponsor/Client:

Number of Hours Spent on Project by Group in Past Week: 35

Project on Schedule: YES

The receiver has yet to be delivered but we made great advances in our transmitting code. We are able to spread out our spectrum by the help of a BPSK Direct Sequence Spread Spectrum. We have also been working on our Interim report. Even though it has been spring break this week, we are very proud of our step forward. By Monday, our receiver will be in and we plan on diving right into work with that.
