

EE/CpE 415/423 – 416/424
2002 Fall – 2003 Spring
WEEKLY STATUS REPORT

Group No.: 15

Date: April 28, 2003

Report No.: 14

Project Title: Real-time Wireless Sensor Network – Signal Analysis for Security Applications

Group Leader: Mark Woolley

Advisor: Prof. Tureli

Sponsor/Client:

Number of Hours Spent on Project by Group in Past Week: 30

Project on Schedule: YES

This week we ironed out all bugs in our code. The code to our constellation graph to show the phase offset of transmission still needs some work. Our final report is almost done for we still need to write a conclusion as well as the prototype results. The poster still needs work for we need to wait until the code is all finished.
