Weekly Status:

- We are still trying to figure out how to ping outside to another server, so we can connect to servers. The program has many things to aid us, but still very difficult to understand because of the lack of books.
- We are also preparing for our weekly meeting with Yao, as we revise our poster of our progress.
- The presentation slides for E421 and final presentation for Senior design (semester 1) are almost complete, and we seem to be having more trouble with our economics analysis more then the technical part of our project.
- As we prepare for the final presentation of the semester, we are gathering our thoughts and see where we stand in our progress. It seems we are slightly behind schedule, any many things seem to hinder our progress; such as Final presentation in other classes and numerous exams.
