<b>Weekly status:</b>
<p>This past week, we reviewed the concept of the CodeBlue Project, researched the basics of physical therapy, started to establish contacts, and began creating a scope of work for the project. In conjunction with Prof. Wetzel and a member of the 2001 CodeBlue team, we established a date for a demonstration of the CodeBlue architecture. Also, we have established preliminary meetings with an independent physical therapist in Jersey City and the Kessler Institute in North Bergen. In addition, we have been working on outlining and refining the focus of our project.</p>

**Weekly report is due to Senior Design Coordinator by Noon Monday**
