WEEKLY STATUS REPORT**

<b>Group #</b>	<b>01</b>	<b>Week ending:</b>	<b>10/06/03</b>	<b>Report #</b>	<b>03</b>
<b>Project Title:</b>	<b>Wireless Biomedical Sensor (Working Title)</b>				
<b>Group Leader:</b>	<b>Anil Ramcharan</b>	<b>Advisor:</b>	<b>Prof. Wetzel</b>		
<b>Sponsor/Client:</b>					
<b>Total number of person-hours spent on project by group during past week:</b>				<b>8</b>	
<b>Is project on schedule?</b>		<b>Yes</b>	<input checked="" type="checkbox"/> <b>[X]</b>	<b>No</b>	<input type="checkbox"/> <b>[ ]</b>

<b>Weekly status:</b>
<p>This past week, we witnessed a demonstration of the CodeBlue system and obtained approval for access to the CodeBlue software and hardware specifications. In addition, we were able to draw up a definitive scope of work. It appears that this project is going to be much more intense than we initially expected. Where we originally thought that we had to modify the existing equipment, we now realize that we have to completely reconstruct the sensors to be smaller and the code to be more efficient. In addition, where the original CodeBlue project was midi based, we have to create a more proprietary functional method of transferring information. Overall, it seems that we will have to spend a lot more time on this project that we anticipated.</p>

**Weekly report is due to Senior Design Coordinator by Noon Monday**
