<b>Total number of person-hours spent on project by group during past week:</b>				<b>46</b>	
<b>Is project on schedule?</b>		<b>Yes</b>	<input checked="" type="checkbox"/>	<b>No</b>	<input type="checkbox"/>

**Weekly status:**

- This week we worked primarily on E-421 Engineering Economics Midterm.
  - Filled out 14 economic related worksheets that dealt with a variety of aspects dealing with the financial analysis of our senior design project.
  - Examples include: Leasing a manufacturing plant, hiring staff, obtaining parts, pricing parts, cost of assembly, break even analysis, etc.
  - Also filled out the seed model with the figures obtained from our worksheets.
  - Created a power point presentation which allowed for our data that was calculated to be viewed and critiqued by our E421 TA.
  - This midterm project allowed our team to really work together and dig really deep into the practicality and feasibility of this senior design project.
  - Overall this midterm project took up a considerable amount of time, but was well worth the effort due to amount of work accomplished.

**Weekly report is due to Senior Design Coordinator by Noon Monday**
