Weekly status:
<p>Our main focus is to complete the final report and afterwards start work on the final presentation. Several ideas have been tossed back and forth on what our project title should be. The best one we came up with so far is "ChaiX: Cellular Handheld Application Information Exchange". We are also in the process of finishing up the SEED model and worksheets. After those have been completed we will finish the final presentation for E421. We also need to finish working on the pizzeria survey to start collecting data for our project.</p>
