Weekly status:
<p>This week the group began their oral presentation slides. An outline of major points to cover was made. Further research was done on current PDAs who can support wireless and USB connectivity. Through the microsoft website, the group obtained eMbedded Visual Tools 3.0 - 2002 Edition, which should be able to be used to program the GUI onto the Pocket PC PDA.</p> <p>Over the next week, the group will continue work on the oral presentation as well as the final design report.</p>
