Weekly status:
<p>This week we met briefly to decide on a set meeting time during the week when everyone will be available. We decided that Tuesday afternoons would be the best time for everyone being that it is an official design day. We plan on meeting for an hour or two to start things off and progress from there.</p> <p>We also decided during this first meeting what our first prototype for the design will be. We would like to create a 2x2 mailbox matrix (4 boxes total) as our first prototype design. This will allow us to experiment with various sensors and methods of detection.</p>
