WEEKLY STATUS REPORT

<b>Group #</b>	<b>07</b>	<b>Week ending:</b>	<b>03/28/04</b>	<b>Report #</b>	<b>10</b>
<b>Project Title:</b>	<b>Automatic Mailbox Notification System</b>				
<b>Group Leader:</b>	<b>Jason Varianides</b>	<b>Advisor:</b>	<b>Prof. Man</b>		
<b>Sponsor/Client:</b>					
<b>Total number of person-hours spent on project by group during past week:</b>				<b>10</b>	
<b>Is project on schedule?</b>		<b>Yes</b>	<input type="checkbox"/>	<b>No</b>	<input checked="" type="checkbox"/>

<b>Weekly status:</b>
<p>During this week back from break we sat down and discussed our goals and the time remaining in the semester. We determined that in order to achieve the initial goal of a working prototype we needed to cut-back on the complexity and the time we have been putting towards making a multiple box setup.</p> <p>As a group we came to the conclusion that it will be best if we went with a single box setup until we finish the remaining components of the design (the serial communication and the web application).</p> <p>Upon making these decisions we began developing the web application and continued further research into monitoring serial port communications.</p>

**Weekly report is due to Senior Design Coordinator by Noon Monday**
