| <p><b>Weekly status:</b></p> <p>This week everyone but Jeremiah was able to make it to the AM meeting. The primary point of discussion was preparations for Senior Design day on April 26<sup>th</sup>. Pauline also asked professor McNair some questions about creating a login page for the DASS's webpage interface.</p> <p>The team discussed the poster layout once again at the PM meeting on Wednesday. The final design will have titles in burgundy "Stevens" style text with an offwhite background and normal text black. Pauline will continue to work on the webpage interface and help Joe with integration. Shaina will work on the poster and she also completed the DC/DC converter. Joe is completing the software design and will work on the integration. Jeremiah will be creating a case from a cookie tin and will also finish the optical isolator.</p> |
