Weekly status:
<p>This week was an average one for the group. We held our normal Monday group meeting on Tuesday instead (since it was a Monday schedule). However, we did not meet with Prof. McNair this week. In the meeting, we set up work allocations for the group members for the midterm report pending a meeting with our advisor, and there were also smaller meetings set up within the group to get specific tasks accomplished.</p> <p>There weren't any spectacular accomplishments or progress on the project this week, but things are getting done. I think the group is really coming down to earth and working on getting the project done, and it's a nice thing to see.</p>
